New Members: New applications should be submitted to the Sgt. at Arms. Applications will be vetted by the Sgt. at Arms and will be brought forward for a vote at the next monthly meeting after being submitted. We look forward to meeting/greeting any new member because to grow our club, we must find people that love to talk (should not be too hard) and that would love to be on the radio. So putting the two together can make a dedicated enthusiast for HAM Radio. We welcome all new members and prospective members and thank them for their interest in Ham Radio.

SCAN Needs Your Input, Articles

It would be great to hear from others amongst us about what operating activities you’ve involved with or what projects you’ve been working on!

FCC Proposes new fees for Amateur Radio!

New information!!!! On August 16th an ARRL bulletin stated that the new fees will not go into effect before 2022! See: [FCC Application Fees Unlikely to Go into Effect Until 2022 \(arrl.org\)](https://www.arrl.org/fcc-application-fees-unlikely-to-go-into-effect-until-2022)

The FCC had proposed a \$50 fee for new or modified Amateur Radio licenses, license renewals and vanity call signs. With input from over 3,000 Hams, the ARRL, and other organizations, the FCC has decided a \$35 fee would be more reasonable.

The ARRL VE letter stated there are some FCC procedures that have to take place before the new \$35 fee will be in effect. The best guess is that it will be this summer.

If you or someone you know would like to upgrade or take their first test, do it sooner rather than later. Save the \$35.

FCC will not accept SSN in lieu of FRN

ARLB014 FCC Auto-Registration Feature for Exam Applicants to be discontinued

Auto-registration in the FCC Commission Registration System (CORES) amateur radio exam for candidates using a Social Security number will be discontinued on May 20, 2021. Applicants must use an FCC Registration Number (FRN) for all license transactions with the FCC.

Examinees must register in CORES and receive an FRN before exam day.

Starting on May 20, electronic batch filed applications that do not include a candidate's FRN will be rejected. The Social Security/Licensee ID Field will be disabled.

The CORES website can be accessed at:

<https://apps.fcc.gov/cores/userLogin.do> .

An instructional video provides step-by-step instructions on how to establish a CORES account, which is necessary for licensees to make administrative updates and download electronic license authorizations.

The instructional video can be found at, <https://www.fcc.gov/rofrn> .

FCC will require all applications to have an email address

After June 29, all filers must provide an email address on all applications. When an email is provided, applicants will receive an official electronic copy of their licenses once granted (allow incoming email from authorizations@fcc.gov). If no email is provided when filing on or after June 29, applications will be rejected. ARRL VEC suggests that those without access to email to use the email address of a family member or friend.

Further information about providing an email address can be found at:

<http://www.arrl.org/news/fcc-to-require-email-address-on-applications-starting-on-june-29-2021>

Licensees need to log in to the Universal Licensing System (ULS) to download their authorizations. The FCC no longer issues paper copies.

Thanks to Sean KK9U and Gary N8GIL, for bringing this ARRL Bulletin to our attention!

On the Air Meeting For September

We had 6 members check in on the air! (33 attended the meeting). We will continue to use this setup for our future meetings. Our next meeting is October 28th. Thank you to the Moose for letting us have our meetings in their ballroom. Sometimes the air handlers are noisy, but Bob, WA9TUG, tells me that the Moose is in the process of replacing their air conditioning system which might be the answer to that problem. One of the neat things about the Moose seems to be that members hang around and talk after the meeting. That's great!

Here are some shorts

We offer our deepest sympathy to the families of Randy Jackson, Don Wittlich and Edward Williamson. Please keep these families in your thoughts and prayers. I've attached their obituaries to the end of SCAN.

Thank you to everyone who helped or came to the club picnic! Steve showed us his POTA setup and I think he made a few contracts. Thanks Steve! It's nice to see what the club members are working on.

Don't forget the "Good Morning Net" M-F, 7-8am by Larry, K9LWW and the 224.12 MHz Net on Thursdays, 7 pm by Steve, W9ZS. Thank you guys for running these nets!

Please send anything you might have for SCAN to kc9mz@arrl.net.

I hope you can attend or check in to the next meeting on October 28th at 2000 CDT.

73 es gud dx,

Randy, KC9MZ

Please patronize our supporters!
